

fact sheet

Name: Hurd's Carpet Cleaning

Proprietor: Rod Hurd

Product: Matting

Introduction

As part of our ongoing commitment to floor maintenance, customer service and safety, we are distributors of 3M Specialised Matting products. 3M matting products stop dirt and moisture at your door, helping to keep other important areas throughout your building clean and dry.

Dirty facts

- 100gm of dirt per day per 100 people can be tracked into a building during dry weather
- 12 times more dirt is tracked in during wet conditions
- it costs around \$1000 to remove 1kg of dirt
- 80% of the dirt and sand in your building comes through the front and back doors

Entrance Matting

- These products are designed to reduce maintenance costs by keeping areas clean and dry.

Work Area Matting

- These products provide cushioning and slip resistance to increase worker safety and comfort.
- The 3M range of anti-fatigue and safety mats will improve worker comfort, productivity and job satisfaction while reducing discomfort, accidents and injuries.

Benefits

- All types of 3M matting products combine attractive styling with exceptional performance and durability to protect hard floors and carpets, reducing maintenance cost while helping to increase safety.
- 3M matting products come in a range of colours and designs to suit your particular requirements.
- As well as the well known and important benefits of industrial and commercial matting, there are many domestic applications where matting can be of benefit. From providing a comfortable surface in Dad's workshop to an attractive and functional entrance surface, there are many situations around the home where matting can add value and extend the life of your floors.
- There are various types of 3M matting products designed for just about any use, inside or out. Their attractive appearances will complement virtually any décor, while our ability to custom cut most mats ensures that you get the mat that fits your space requirements.

When matting is combined with a Hurd's floor maintenance program, you will have many years of good looking and hard wearing flooring in your home.
